

# Processing a SmartPay Application

## Simple. Easy. SmartPay.

Lead with SmartPay and let your customers shop with no credit required for the phone they want and the accessories that are right for them – all with low monthly lease-to-own payments that they can afford.

### PROCESS

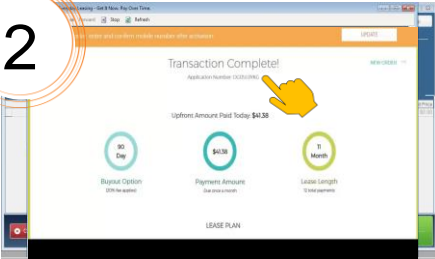

1

### Step 1

Click on SmartPay icon in POS. SmartPay login screen will open up in Elevate POS. Login with your SmartPay store ID walk the customer through the application process. Once the customer reviews and agrees to all disclosures the lease-to-own application is complete and you will receive an application ID. You will return to the POS to complete the transaction.

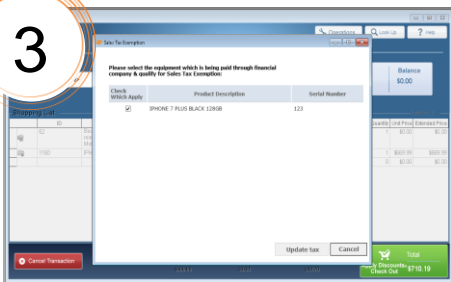

2

### Step 2

Upon completion of the SmartPay application and the processing of the customer's total initial payment, you will see the application ID appear on the screen. Copy the application ID, as you will need to add it to the transaction details in POS.

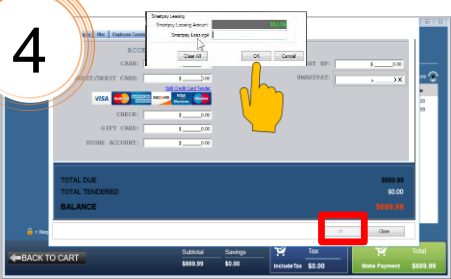

3

### Step 3

Select the contract type, and confirm the items in the shopping cart. In the popup screen, select device/devices leased by SmartPay and check the box for leased devices. Then click the "Update Tax" button.

4

### Step 4

Once the tax is removed, apply any coupons and enter the lease amount into the SmartPay box. Key in the SmartPay application ID in the popup, select "OK" and complete the transaction.
